## Features and Benefits

### Overview

intRAtrain™- a Learning Management System (LMS) designed for small and mid-sized companies. intRAtrain™ is a breakthrough LMS that is easy for administrators and students to use and navigate. intRAtrain™ embodies many robust features you would only expect to find in more expensive Learning Management Systems including creating a class, enrolling students, registering for classes, tracking completion, creating and printing tests, adding/editing test results, printing classroom rosters, accessing/printing standard and custom reports and much more.

What makes intRAtrain™ LMS unique? It has the features companies' value most, it is easy-to-use and in this tough economic environment it will fit your budget. For companies looking for an affordable, relevant, and robust system, intRAtrain™ is your best choice!

Standard features include fast setup - this means you can have your system up and running quickly. intRAtrain™ manages and administers classroom training and student demonstration of skills. This means all types of training and training records (both e-Learning and classroom-administered) are stored on one data base for access by students and management. There is also an e-commerce shopping cart interface so training can be purchased and launched immediately.

What makes intRAtrain™ especially desirable is that even with all the added features, it remains one of the most intuitive and easy to use systems on the market today.
