

SafeTrain™

Accidents, injuries, and product recalls are expensive, but they can be avoided. Whether it's safety training for fork trucks, ladders, PPE and more; or if you're looking for HACCP training or food safety training for food handlers or food managers, SafeTrain™ has the content you're seeking. Most courses are also available in Spanish.

"Safety is like a lock, but you are the key!"

~ Unknown

Overview

SafeTrain™ is a Library of online and blended learning safety training courses that focuses on employee health and safety performance by influencing and standardizing employee actions, behaviors, and practices to reduce accidents and incidents.

If your looking for HACCP training or food safety training for food handlers or food managers, SafeTrain™ has the content. It's not easy to a put a pricetag on safety, but accidents and injuries cost thousands of dollars and product recalls can cost millions of dollars.

There is no guarantee employees will do what is "right" and what is "safe" all of the time. But, with SafeTrain™ online safety training you are providing employees with the safety training tools and knowledge to make the "right" choices and decisions to work safely. SafeTrain™ is an investment in your company, but equally important, it is an investment in your employees and their families.

Features and Benefits

SafeTrain™ is online training geared to individual and group learning that helps modify employee behavior and practices directly related to the safe operation of facilities and equipment and the safe handling of food and food products.

With SafeTrain™ you are taking a proactive approach to food safety and safety risk management. You are creating a safety-first culture with your employees and a focus on workplace safety and food safety.

SafeTrain™ online safety training is available 24/7. It is efficient and cost-effective. It can result in:

- Better trained employees
- Improved and safe practices
- Increased productivity
- Safer workers
- Reduced risk
- Increased morale
- Defensible training records, and much, much more

If it is important to you – if it is important to your employees and their families to improve workplace and occupational safety and eliminate unsafe practices and accidents – SafeTrain™ is the solution!

Application Examples
