

intRAtrain™ Management Platform for Animal Caretaker Training is revolutionizing the way animal producers conduct Training, Testing, and Documentation with employees.

iIMPACT:

- Reduces Training Variability
- Makes Training Available Online
- Permanently Documents All Training Records
- Enables Observation of Employee Competency
- Provides Remote Auditing Capabilities
- Increases Learning Retention
- Custom Options Available to EVERY Farm
- **Raises Accountability**

## Overview

Producers around the country have noticed one thing in common when it comes to training: documentation could be A LOT easier!

At present, many operations keep training records stored with paper based mechanisms. When audits must be conducted, or training records must be collected - producers scramble to compile their paper based documentation. Time is wasted gathering data, and unnecessary bio-security issues are raised when materials must be taken to or from a site. iMPACT now alleviates these challenges - giving you training and employee observation stored centrally, accessible across your organization - in minutes.

As an added feature to iMPACT - employee observations, safety inspections, environmental inspections, and more can be conducted and stored digitally. Files are stored centrally, and issues are brought to the attention of management quickly and easily.

## Features and Benefits

### EFFICIENCY

Training is available online - reducing time off site, increasing productivity, and reducing training cost. Variability is reduced as employees receive the same message every time!

### DOCUMENTATION

No more shuffling papers to find your training records! All training records and employee observations can be stored digitally, just clicks away.

### GROWING CONTENT BASE

iMPACT is The Platform for Training, Testing, and Documentation. This Platform becomes the go-to-platform for excellence in the agriculture industry for building Knowledge, Skills, & Accountability. New training can and will be added over time.

### CUSTOM CONTENT

Every operation has unique training needs. With iMPACT, you now have the ability to custom-create learning resources, provide them to your employees, and document their completion.

## Application Examples
